## Profile:

### Training before admission tests of music-classes

Course aimed for children in class 2 who wish to apply to the music-classes at Adolf Fredrik(AF), in Sollentuna or Täby.

In 2012, 1200 children competed for the 180 seats at AF. The competition is tough. To be accepted, one must be good at singing and have good ear.

**It takes time to learn this properly** and to make it fun and inspiring for the kids, our training varies between individual lessons and singing in a group.

**Our goal** is to help the kids develop their voices and ear, which improves their self-confidence and gives them a good admission test.

**We focus on knowledge and joy!**
